

SALALAH BEACH WATERPARK

Bringing in new entertainment to its ever growing Salalah Beach destination, Muriya is introducing an iconic waterpark in the Dhofar Governorate. The all-new aquatic experience promises to deliver sensory thrills unlike any other.

Expected to be operational end of 2017, the waterpark will be built on an area of 35,000 sqm and will include diverse amenities catering to all ages. Up to 1500 people daily will have the chance to body surf, dive under the crashing waves, and swim the day away in the wave pool, or float along in the leisure river. Another prime attraction will be the children's area, featuring a large water play structure with slides, waterfalls and features that will provide fun for the entire family. The waterpark will also offer various rides designed for thrill-seekers and families alike, including a mix of body and tube slides with both open and closed flumes.

Whether it is a weekend trip for some quality time with the family or tourists unwinding after a long journey, Muriya's new waterpark in Salalah will provide an attraction never before experienced in Oman.
